Presidential Golf Challenge Update Report 2022

Project update on funds raised at the 2020 Presidential Golf Challenge

Cyril Ramaphosa Foundation was nominated as the beneficiary of the 2020 Presidential Golf Challenge. It appointed its Whole School Development partner entity, Adopt-a-School Foundation, to implement sanitation projects at three designated schools in 2020. These schools are Bodutlulo Primary School in Malipsdrift village in Limpopo, Tlouatiba Primary School in Mathabatha village in Limpopo, and Nongamlana Secondary in Nkandla in KwaZulu-Natal.

About the Cyril Ramaphosa Foundation

Cyril Ramaphosa Foundation is an independent non-profit organisation that improves lives and creates opportunities through education and enterprise development. The vision of the Foundation is to be a trusted, innovative, and effective agent of social and economic change that improves lives and creates opportunities in the communities it serves. This is driven by its core values, which includes, inspiration, passion, performance, integrity, and innovation. Cyril Ramaphosa Foundation is a partner of choice for social change through its partner entities, Adopt-a-School Foundation, KST, Cyril Ramaphosa Education Trust, and Black Umbrellas.

About the Adopt-a-School Foundation

The Adopt-a-School Foundation (AAS), officially established in 2002, strives to support the delivery of enhanced and conducive teaching environments. This is done with the support of public and private partners that assist the Foundation to implement its replicable model of Whole School Development (WSD). The model focuses on the development of four critical areas within a school environment: leadership, curriculum, infrastructural and social and learner well-being in adopted schools. The public and private partners include a wide range of stakeholders, such as corporates, individuals, best practice NGOs and the Department of Basic Education from district to national levels. The Adopt-a-School Foundation celebrates its 20th anniversary this year.

Adopt-a-School's Vision and Impact

Adopt-a-School's vision is to contribute to the building of dynamic, transformed, and accessible schooling environments that produce capable global citizens to meet the developmental needs of southern Africa. AAS Foundation's goals are as follows:

- ensure delivery of quality and best value programmes for beneficiaries and stakeholders;
- ensure effective programme implementation to support the improvement of learning outcomes in schools;
- establish and maintain a reputable, capable, innovative and dynamic organisation;
- develop and maintain systems and policies to support transparency, accountability and good governance;
- develop and maintain funding models that will ensure the long-term sustainability and optimal impact of AAS's work.

Adopt-a-School Foundation's community-based infrastructure model

Adopt-a-School Foundation is driven to uplift not only the schools, but the communities in which those schools are located. Skilled and unskilled parents from the community are supported through temporary employment opportunities in the construction of the facilities. This helps to improve the sustainability of school development and the success of implemented projects. These personnel are sourced with the help of a Project Steering Committee (PSC), comprised of volunteers from the School Governing Body and School Management Team, in partnership with the Foundations' Project Manager. The infrastructure model provides temporary employment for the workers and empowers them with a set of skills and experience that improves their employability. Through the 2020 PGC projects the Foundation afforded temporary employment opportunity to 42 workers.

Adopt-a-School impact figures

623	1 417 177	38 714	14 187	2 196	702
Adopted schools	Total number of learners benefited	Number of educators developed in curriculum, strategic planning and leadership and management programmes	Temporary jobs created since inception	Small businesses assisted since inception	Number of new structures built

Project Update

Sanitation projects chosen with the funding received from the 2020 Presidential Golf Challenge

The project scope in the three schools entailed the construction of ventilated, improved pit ablutions at the three schools, that is, Bodutlulo Primary School, Tlouatiba Primary School and Nongamlana Secondary School.

These schools were identified in partnership with the Department of Basic Education, in line with the Sanitation Appropriate for Education (SAFE). The projects at the Bodutlulo and Tlouatiba schools began in May 2021, while the project at Nongamlana Secondary began in August 2021.

The Foundation is excited to report that the projects at Bodutlulo and Tlouatiba primary schools are fully completed, while the project at Nongamlana Secondary School is near completion.

Limpopo – Malipsdrift Village Bodutlulo Primary School: VIP toilets

The school caters for 254 learners

Limpopo – Gamathabatha, Mphaneng Village
Tlouatiba Primary School: VIP toilets

The school caters for 234 learners

Before

After

Kwazulu-Natal – Nkandla
Nongamlana Secondary School: VIP toilets

The school caters for 1035 learners
